2 4 APR 1986

MEMORANDUM FOR	: The Record	
FROM:	RMO/ICS	25X1
SUBJECT: Agreement with SS/OL Regarding Secure Addresses		
of contractor mail to each o		of the Office 25X1 approved address file handling classified attensive dealings with
	ng contractor mail.	25X1
SS/OL will give ICS registry "read only" access to the OL Conif on-line data base. We will use this data base to verify addresses and properly label and mark outgoing mail. The Conif data base is a GIMS based system, similar to our registry COMREG and TRIS data bases. Since we will be "read only" users there will be little or no training required to operate the system; also we will only have to learn two or three standard queries.		esses and properly label be based system, similar will be "read only" operate the system; also
I will kee	ep you informed as we begin to use this pr
